

Radium Release Hitches have been proven to out-perform load release straps time after time. The Radium has greater extension (9+ ft) and better control and it can never fuse together under shock load the way that load release straps can. Carabiners are part of the system, simplifying your rigging.

Key Features:

9 + ft extension • Can't "fuse" under shock loads • Integral carabiners • Pre-tied with 8 mm accessory cord for convenience • Comes in a convenient storage pouch • Hook and loop fasteners hold carabiners in place for fast deployment • Instructions to re-tie hitch

Weight: 1.81 lbs (816 g)
